

for aesthetic +  
reconstructive surgery

---

To Our Valued Patients,

We have been closely monitoring the CDC's guidelines and recommendations regarding the Coronavirus (COVID-19). The health and safety of our patients and our staff is our top priority.

At this time we are still open. However, appointments are limited to essential visits only to minimize exposure. We are screening patients for a history of current illness, recent travel, or history of contact with a person with COVID-19 exposure. Dr. Doyle may always be reached by calling the office at 401-336-3770. Choose the option to speak with the physician if the office is closed. We are in the process of setting up telemedicine for virtual consultations. Anne, our aesthetician, is available to answer skin care questions by email ([annec@centrefars.com](mailto:annec@centrefars.com)).

Our facility will continue our usual daily cleaning with hospital grade disinfectant. In addition, we are following CDC guidelines, and have implemented rigorous cleaning protocols throughout the day to sanitize the door handles, counters, equipment and patient areas. Our staff is adhering to hand washing protocols and alcohol hand sanitizing under the guidelines of the CDC.

The recommendations from state and federal health officials regarding COVID-19 change daily as we respond to this pandemic. We will continue to adapt to the recommendations in the coming weeks. We thank you for your patience as we work diligently to reschedule all of you that have been affected. We appreciate your understanding during this time and wish that you and your family remain healthy and safe.

Thank you for your continued support of our practice – we will see you soon!

Best regards,  
Dr. Andrea Doyle and staff
